## **RESEARCH/PAPERS/LECTURES**

- 2014 – 2017           **Atlantic Health System, Morristown Medical Center: Physiologic Reconstruction of the Ankle Syndesmosis After Heterotopic Ossification of a Neglected Salter- Harris Type 3 Injury in a High Caliber Athlete**  
This case study addresses the rarity and treatment of syndesmotic heterotopic ossification in a neglected Salter-Harris Type III fracture. The surgical principles are presented with the goals of getting the athlete back to full activity quickly, with less pain, and with preservation of the physiologic pivoting motion of a shortstop baseball player. Poster presentation at the American College of Foot and Ankle Surgeons Conference in March 2017
- 2016 – 2017           **Atlantic Health System, Morristown Wound Healing Center: A Case Study of Chronic Non-healing Ulcer Recipients of Epidermal Skin Grafting, Fail to Success Cases**  
A case analysis of three patients with chronic non-healing venous stasis ulcerations receiving epidermal skin grafting treatments that went from failure to success after two treatments under Dr. Robert Skerker. Submitted for poster presentation at the American College of Foot and Ankle Surgeons Conference in Feb-Mar 2017
- 2016 – 2017           **Atlantic Health System, Overlook Medical Center: A Case Study on Ipsilateral Foot Proteus Syndrome with Hallux Transposition and Reconstruction**

A case study of Proteus Syndrome and ipsilateral gigantism of the lower extremity that underwent complex hallux transposition and reconstruction. On going follow-up with Dr. Roy Nuzzo
